PROFESSIONAL SUMMARY

MCA graduate with hands-on experience in **Python, AI/ML, DL, NLP, Computer Vision, and LLM-based applications** through academic and internship projects. Skilled in developing **Full-Stack applications** using Django, FastAPI, Flask, React, and deploying solutions with Streamlit, Hugging Face, Render, and Vercel. Strong problem-solving and analytical abilities with practical experience in **model development, API integration, data processing, and building scalable real-world applications.**

EDUCATION

Master of Computer Applications (MCA) | PET Engineering College, Anna University - Tirunelveli

Specialisation: Software Development & Systems Engineering

Sep 2023 - Aug 2025

Bachelor of Commerce (B.COM) | TDMNS College, MS University - Tirunelveli

Specialisation: Commerce

Jun 2020 – Apr 2023

TECHNICAL SKILLS

Languages: Python, JavaScript, SQL, HTML, CSS

AI/ML : ML, DL, Computer Vision, Object Detection, Prompt Engineering, LLM, NLP

Frameworks : Django, FastAPI, Flask, React

Libraries : Pandas, Numpy, Scikit-Learn, Scipy, Keras, OpenCV, PyMuPDF, Pytorch, Tensorflow

Databases: MySQL

Tools : Git, Github, Selenium, Power BI, Apache Spark, Hadoop

API & Testing : Open AI, Swagger UI, Postman

Cloud & Deployment : Streamlit, Hugging Face, Render, Vercel, Microsoft Azure

Soft Skills: Problem Solving, Analytical Thinking, Rapid Learning, Innovation, Team Collaboration

PROJECTS

Redbus Data Scraping & Dynamic Filtering | Python · Pandas · Numpy · Selenium · ML · Hugging Face · Streamlit

- Developed a web scraping application using Selenium to collect Redbus travel data and implemented dynamic filtering in Streamlit for interactive analysis of bus routes, timings, prices, and availability.

Fake News Detection Dashboard | Python · Pytorch · TensorFlow · Computer Vision · DL · NLP · Hugging Face · Streamlit

- Developed an interactive dashboard to detect and classify news articles as fake or genuine using machine learning and natural language processing techniques.

Underwater Image Enhancement | Python · Pytorch · TensorFlow · Object Detection · DL · NLP · Computer Vision · Streamlit

- Developed an image enhancement system to improve the quality, color balance, and visibility of underwater images using advanced image processing techniques.

AI Study Planner | Python · Django · Django REST Framework · React · Render · Vercel

- Developed an AI-powered study planning system that helps users organize subjects, create personalized study schedules, and track learning progress efficiently.

Invoice PDF Extractor | Python · PyMuPDF · OpenCV · Open AI API · Prompt Engineering · Streamlit

- Developed an AI-powered application to extract structured invoice data from PDF files and map the extracted information into a standardized Excel format for efficient processing.

Car Price Prediction | Python · Keras · Scikit-Learn · Classification · FastAPI · Swagger UI · ML · HTML · Render ·

- Developed a machine learning classification system to predict car prices based on vehicle features, with data preprocessing, model training, and a FastAPI-based interface for real-time predictions

Real Estate Management | Python · Flask · LLM · HTML · CSS · JavaScript · MySQL · SQL · Render

- Developed a web-based real estate management system to manage properties, users, inquiries, appointments, and favorites through an interactive and user-friendly dashboard.

CERTIFICATIONS & TRAINING

- Advanced Diploma in Python Programming | CSC
- DataScience using Python (16 Days) | The Mind IT Solution
- Software Developer Intern (AI) | PARK Intelli Solutions Pvt Ltd

Dec 2023 - Mar 2024

Aug 2024

Aug 2025 - Jan 2026
